Title: Assistant Manager / Deputy Manager – MIS Apps

Job Role & Requirements:

- Manage MIS-related projects, including planning, execution, delivery, and evaluation.
- Oversee the implementation, maintenance, and optimization of MIS systems.
- Coordinate with project managers, software developers, and other stakeholders to align database development with project requirements.
- Write and maintain high-quality SQL code for database access, modifications, and constructions.
- Ensure data integrity and implement security measures for database access.
- Identify and resolve database-related issues, including performance bottlenecks and security vulnerabilities.
- Develop and manage complex reports and dashboards as per the requirements.
- Participate in code reviews and ensure adherence to the coding standards and best practices.
- Lead a team of MIS/SQL developers, providing mentorship and ensuring their continuous professional development.
- Resolve MIS-related issues promptly to minimize downtime and disruptions.
- Maintain documentation of system configurations, processes, and procedures.
