APPLY NOW

Assistant Manager / Associate – Security Engineering

JOB ROLE & REQUIREMENTS:

- Administer, manage, and optimize enterprise security solutions, including Endpoint Protection (EPP), Endpoint Detection and Response (EDR/XDR), DNS security, and email security tools, to ensure comprehensive coverage of IT assets and effective threat detection, investigation, and response.
- Monitor security events and alerts using security analytics and monitoring tools to identify cyber threats, conduct investigations, and execute timely incident response activities.
- Configure, maintain, and continuously optimize Data Loss Prevention (DLP) controls across endpoints, email, web, cloud applications, and network channels.
- Perform enterprise-wide data discovery and classification to identify, label, and protect sensitive information, including PII, PCI/CHD, financial data, and other confidential business information.
- Investigate data leakage incidents, perform policy tuning, and recommend remediation measures to mitigate risks and strengthen security controls.
- Support cybersecurity audits, compliance assessments, risk reviews, and regulatory requirements across internal and external stakeholders.
- Collaborate with IT, infrastructure, application, and business teams to implement security best practices and enhance overall cyber resilience.

At 1LINK we believe in equal opportunity & inclusivity for all. We encourage our employees to live a healthy life & work to the best of their potential.

FOR EMPLOYEES TO GIVE THEIR BEST, WE OFFER:

- Flexible working options, including flexible hours
- Continuous training and development
- Quarterly bonuses
- Subsidized lunch
- Club facility
- In-person and online doctor consultations
- Education assistance
- Performance bonuses
- Carpooling incentive
- On-site gym
