APPLY NOW

Associate / Officer – Application Security

JOB ROLE & REQUIREMENTS:

- Perform application security assessments and architecture reviews to identify vulnerabilities and recommend appropriate remediation measures; collaborate with development teams to address findings and promote secure coding practices throughout the Software Development Lifecycle (SDLC).
- Support the adoption and integration of SAST, DAST, and IAST tools within CI/CD pipelines, and automate application security testing to enable scalable, consistent, and continuous security validation under a DevSecOps framework.
- Conduct threat modeling and security risk assessments for new and existing applications, and develop, implement, and enforce secure coding standards, security baselines, and application security best practices.
- Ensure compliance with OWASP ASVS, OWASP Top 10, NIST, ISO 27001, and applicable regulatory requirements; review Web Application Firewall (WAF) alerts and other application-layer security controls accordingly.

At 1LINK we believe in equal opportunity & inclusivity for all. We encourage our employees to live a healthy life & work to the best of their potential.

FOR EMPLOYEES TO GIVE THEIR BEST, WE OFFER:

- Flexible working options, including flexible hours
- Continuous training and development
- Quarterly bonuses
- Subsidized lunch
- Club facility
- In-person and online doctor consultations
- Performance bonuses
- Carpooling incentive
- On-site gym
- Education assistance
