APPLY NOW

Manager / DM – Storage Backup and Open OS Infrastructure

JOB ROLE & REQUIREMENTS:

- Lead and manage enterprise storage, backup, and Linux (including Red Hat) infrastructure across Primary and Disaster Recovery (DR) environments, ensuring high availability, performance, and security.
- Drive data protection strategy, ensuring robust backup, retention, and recovery processes aligned with compliance and business continuity requirements.
- Oversee infrastructure lifecycle management, including capacity planning, upgrades, standardization, and optimal resource utilization across data centers.
- Ensure high availability of critical systems through effective load balancing, DR planning, and successful execution of failover and switchover scenarios.
- Lead 24/7 operations (L2/L3 support), managing incidents, escalations, and root cause analysis to maintain system reliability and service continuity.
- Develop and execute infrastructure strategy, including technology roadmap, modernization initiatives, vendor management, and procurement processes.
- Ensure compliance with audit and regulatory requirements, proactively identifying risks and driving continuous improvement across systems and processes.

At 1LINK we believe in equal opportunity & inclusivity for all. We encourage our employees to live a healthy life & work to the best of their potential.

FOR EMPLOYEES TO GIVE THEIR BEST, WE OFFER:

- Modular working options such as flexi-hours
- Continuous training and development
- Quarterly bonuses
- Subsidized lunch
- Club facility
- Employee educational support
- Performance bonuses
- Carpool incentive
- On-premises gym facility
- In-person/online doctor consultation facility
