Senior Manager / Manager Security Architecture

JOB ROLE & REQUIREMENTS:

- Maintain and enhance the 1LINK security architecture to address emerging cyber threats.
- Assist in ensuring compliance with PCI DSS and other applicable regulatory and information security standards.
- Conduct security assessments for new initiatives, products, and technology deployments.
- Review baseline configurations of network and security devices to ensure alignment with industry best practices.
- Assess endpoint and network protection controls, including their policy configurations.
- Recommend improvements to strengthen the overall cybersecurity posture of 1LINK in coordination with relevant system owners.
- Evaluate existing tools and controls to identify opportunities for enhancement within the information security framework.
- Support internal and external information security audits, and conduct assessments to verify the completeness and effectiveness of the security program.
- Review all IT network-related changes from an information security perspective.
- Support the SOC team in operational activities, network investigations, and monitoring control enhancements.
- Review, update, and maintain information security documentation.
- Apply practical knowledge of network, infrastructure, and application security to support security objectives.

At 1LINK, we believe in equal opportunity and inclusivity for all. We encourage our employees to maintain a healthy work-life balance and work to the best of their potential.

FOR EMPLOYEES TO GIVE THEIR BEST, WE OFFER:

- Flexible working options, including flexible hours
- Continuous training and development
- Quarterly bonuses
- Subsidized lunch
- Club facility
- In-person and online doctor consultations
- Education assistance
- Performance bonuses
- Carpooling incentive
- On-site gym
