Title: Assistant Manager / Associate – New Projects & Innovations

Job Role & Requirements:

- Install and troubleshoot security tools on all server infrastructure.
- Administer centralized patch management system and patch infrastructure according to policies, keeping all assets up to date.
- Coordinate with control teams for vulnerability assessment, penetration testing reports, and plan actions to resolve highlighted points in the report.
- Provide 24/7 Level 2 support for observed issues.
- Administer Privileged Access Management (PAM).
- Maintain SOPs to streamline core technical processes and ensure quality measures adhere to best practices.
- Block online attack sources (Unusual traffic hashes) on all security tools.
- Assist in managing the email security system.
- Manage infrastructure audit and compliance requirements, smoothly addressing all highlighted points.
- Hands-on experience with security tools (e.g., EPP, EDR, XDR).
- Assist in disaster recovery planning, testing, documentation, strategy, and smooth transition.
- Investigate potential issues as they arise and escalate them appropriately.

At 1LINK we believe in equal opportunity & inclusivity for all. We encourage our employees to live a healthy life & work to the best of their potential. For employees to give their best, we offer:

- *Modular working options such as flexi-hours*
- *Continuous training and development*
- *Quarterly bonuses*
- *Heavily subsidized lunch and club facilities*
- *Employee educational support*
- *Performance bonuses*
- *Carpool incentive*
- *On premises gym facility*
- *In-person/online doctor consultation facility*
